Sage X3 is a powerful, flexible ERP platform designed to manage complex operations, multi-entity organisations, and evolving business needs. Built for scalability, Sage X3 streamlines finance, supply chain, manufacturing, and distribution processes — giving you real-time visibility and control across your entire enterprise.

Key Capabilities

Comprehensive ERP Functionality

- End-to-end financial, supply chain, production, and inventory management
- Advanced analytics and dashboards for real-time decision-making
- Integrated workflows for purchasing, sales, and customer management
- Strong compliance and audit support with role-based controls

Multi-Entity & Multi-Currency Management

- Consolidate reporting across multiple entities, business units, or geographies
- Seamlessly manage intercompany transactions and eliminations
- Support for multiple currencies, exchange rates, and tax regimes
- Global visibility with local compliance flexibility

Scalable and Global by Design

- Easily adapts to business growth, mergers, and geographic expansion
- Handles large transaction volumes and complex business structures
- Scalable architecture that grows with your organisation's demands

Flexible Deployment Options

- Cloud, hybrid, or on-premises deployment to suit your IT strategy
- Configurable modules and workflows tailored to your industry and operations
- API integrations for connecting third-party and legacy systems

Configurable and Customisable

- Personalised dashboards, reports, and user interfaces
- Low-code tools for extending functionality without heavy development
- Support for multilingual, multicurrency, and multi-legislation environments

A Customer Success Story

Upgrading to Sage X3 with Acuity24

Upgrading from Sage 50 to Sage X3 with us delivered impressive benefits for a Global Travel Agent and Freight Forwarding organisation including:

- Centralised systems across all EMEA entities
- Faster, more accurate consolidation and reporting
- Seamless multi-currency, multi-language, and statutory compliance
- Reduced hardware and infrastructure costs
- Stronger financial visibility to support growth
